

## Extra Points for CS 4213 - Software Design Patterns

**Total points: 11**

---

Name: Colby Frison  
OUID: XXXXXXXXXX  
Class: CS 4213 - Software Design Patterns  
Semester: Fall 2025  
Group: H

---

Formatted as question/answer for all. Some are not directly question answer though, some are more so what we/I were doing and the reason why we/I got points for it.

**8/27/2025**

**Question:** “Is the school of computer science a system”

**Answer:** “Yes”

**Points:** 1

**Question:** “What is a systems engineer”?

**Answer:** “A system engineer abstracts a problem in such a way to create a systemic approach to finding a solution”

**Points:** 1 (group)

**9/5/2025**

**Question:** “Why design patterns”

**Answer:** “They are good as they can are a known working solution, this allows good communication throughout the team, and ensures a proper stable solution for the teams problem.”

**Points:** 1

**9/26/2025**

**Question:** “Why OSM”

**Answer:** “1. by building the system you can understand the gaps in your knowledge — 2. By having it written you can explain it to others — 3. by having it modeled you can find its functions, what it lacks and what it needs.”

**Points: 3**

**10/3/2025**

**Question:** “Participation 3 presentation”

**Answer:** “Presentation was good”

**Points: 2**

**10/15/2025**

**Question:** “Create decision table”

**Answer:** “Created decision table”

**Points: 1 (group)**

**10/24/2025**

**Question:** “Why be a good software engineer”

**Answer:** “Allows you to be more efficient, saving time, which is the only thing you can’t get back”

**Points: 1**

**10/29/2025**

**Question:** “Presentation”

**Answer:** “Presented”

**Points: 1**
